

# Spring 2009 Restoration Event

## Forest Lake Shoreline Restoration

May 16<sup>th</sup>, 8:30 AM - 12:30 PM

Lake St. N. & 2<sup>nd</sup> Ave. NW, Forest Lake, MN

**Volunteers: 100**

**Supervisors: 20**

Volunteers and their families are invited for a special day of lakeshore restoration planting in Forest Lake. Through demonstrations and participation, community members will gain knowledge on shoreline restoration techniques, actively restore native plants in an effort to enhance water quality, and prevent soil contamination within Forest Lake. Through this event, participants will be empowered to implement these practices on their own property. This is a great opportunity for corporate and community groups, individuals and families. No experience necessary and all training is provided! Volunteers should wear waterproof boots or shoes in order to participate in this project.

*This project is made possible by support from the City of Forest Lake, Forest Lake and Comfort Lake Watershed District, the Minnesota Department of Natural Resources, and the Minnesota Pollution Control Agency.*

Individuals of all ages, families, community and corporate groups are welcome to participate in Greening's restoration events. Residents of nearby communities will be given priority for this event. **Lunch will be provided for pre-registered volunteers, so sign up today!** You will receive a confirmation one week prior to the event with directions and event details.
